Edge Impulse CLI Installation Troubleshooting

If you are running into issues using Edge Impulse CLI, please refer to the following [Edge Impulse documentation](#).

In addition, several students have suggested the following troubleshooting tips:

In Windows, if you cannot install the Edge Impulse CLI tool because node_modules folder could not be created in ...\\AppData\\Roaming\\npm, try the following steps:

1. Uninstall Node.js and npm
2. Delete all files fromAppData\\Roaming\\npm
3. Reinstall Node.js. At the beginning of installation checked the box that says "Automatically install the necessary tools....."

✓ Complete
