

Your grade: 100%

Your latest: 100% • Your highest: 100% • To pass you need at least 100%. We keep your highest score.

1. Consider the synchronous product of the two transition systems shown below. Note that the states in these transition systems are labeled with variable evaluations.

1 / 1 point

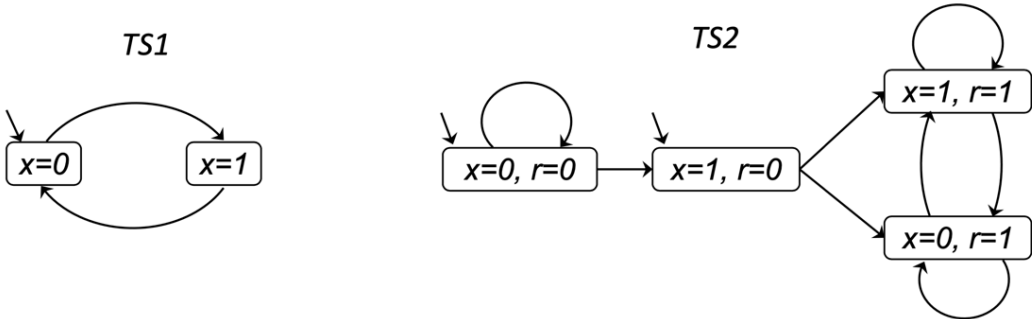

Which of the following are reachable states and state transitions in their synchronous product? Select all that are correct.

✓ Nice work

2. Consider the synchronous product of the two transition systems shown below. Note that the states in these transition systems are labeled with variable evaluations.

1 / 1 point

Which of the following are reachable states and state transitions in their synchronous product? Select all that are correct.

✓ Nice work

3. Which of the factors below are needed to estimate the size of transition system of a program graph? Select all that are correct.

1 / 1 point

✓ Nice work

4. Suppose a system is composed of a number of program graphs. Which of the following statements is true about estimating the size of state space for that system?

1 / 1 point

✓ Nice work
