Week 2: Edge Detection
Grade received 100% To pass 80% or higher

✓ **Reading:** Week 2 Lecture Handout
30 min

✓ **Ungraded Plugin:** 2.1 Overview of Edge Detection
2 min

1. How does the distribution of image gradients roughly look for corners in an image?

- ☒ Points are clustered in the centre.
✓ **Ungraded Plugin:** 2.2 What is an Edge?
☐ Along with the center cluster you get one additional linear cluster.
6 min
☐ Along with the center cluster, you get two additional clusters.
✓ **Practice Quiz:** 2.2 What is an Edge? Self-check Quiz

✓ **Correct**
The two additional clusters represent the two edges with different orientations which intersect to form an edge.
✓ **Ungraded Plugin:** 2.3 Edge Detection Using Gradients
11 min

2. Consider a distribution of image gradients with one center cluster and two additional clusters in the first and the third quadrant. Will this be detected as a corner?

☐ Yes
✓ **Ungraded Plugin:** 2.4 Edge Detection Using Laplacian
13 min

✓ **Correct**
Since clusters are in the first and third quadrant they both lie in the direction of the first moment. The first moment will be large but the second moment will be small.
✓ **Practice Quiz:** 2.4 Edge Detection Using Laplacian Self-check Quiz
Started

3. How does non-maximal suppression work?
Canny Edge Detector
Note: Peak here refers to the highest value. In the lecture video it is the value of R.

- ☒ Pick a pixel with maximum intensity as the peak.
✓ **Practice Quiz:** 2.5 Canny Edge Detector Self-check
Started
☐ You slide a window across the image and label a pixel as positive if it is the peak in that window.
☐ You slide a window across the image and look for global peaks in intensity.
✓ **Reading:** 2.6 Video
☐ You slide a window across the image and label a pixel as negative if it is the peak in that window.
10 min

✓ **Correct**
The main idea is to pick the peak amongst a cluster of points, hence we look for the maximum pixel in a particular window.
✓ **Ungraded Plugin:** 2.6 Canny Edge Detector
15 min

📅 **Practice Quiz:** 2.6 Corner Detection Self-check Quiz
Started

📅 **Discussion Prompt:** Week 2 Edge Detection Methods
10 min

📅 **Discussion Prompt:** Week 2 Questions and Feedback

Week 2 Quiz

2.6 Corner Detection Self-check Quiz
