Week 2 Quiz

Your grade: 100%

Your latest: **100%** • Your highest: **100%** • To pass you need at least 80%. We keep your highest score.

Next item

2.5 Tracking by Feature Detection Self-Check Quiz

1. Which of the following can be used as a heuristic in object tracking? **1 / 1 point**

- Mean Absolute Error
- Mean Squared Error
- Both A and B

Correct
Since the heuristic has to penalize the deviations, both can be used.

2. Which of the following applications can benefit by utilizing object detection and tracking? **1 / 1 point**

- Traffic Surveillance
- Shopping outlets
- Soccer
- All of the above

Correct
Traffic surveillance/monitoring can utilize object detection to track cars and impose fines automatically if the cars violate any rules. Similarly, shopping outlets can use object detection and tracking to understand where customers spend most of their time and for identification in case of theft. Lastly, coaches can employ player detection and tracking to enhance their tactics and for in-game management.
