1. What question does the navigation problem pose and seek to answer?

1 / 1 point

- ☐ Who am I?
- ☐ Where is it?
- ☐ How do I get there?
- ☒ Where am I?

✔ **Correct**
Yes, this is correct.

2. What is the purpose of INS in a navigation system?

1 / 1 point

- ☒ It provides relative position-estimate updates with respect to a prior known position.
- ☐ It provides noisy absolute position measurements with respect to a fixed reference coordinate frame.
- ☐ It fuses relative position-estimate updates and noisy absolute position estimates to compute an overall optimum position estimate.
- ☐ It computes a path from my present position to the desired final position.

✔ **Correct**
Yes, this is correct.

3. What is the purpose of GPS in a navigation system?

1 / 1 point

- ☐ It provides relative position-estimate updates with respect to a prior known position.
- ☒ It provides noisy absolute position measurements with respect to a fixed reference coordinate frame.
- ☐ It fuses relative position-estimate updates and noisy absolute position estimates to compute an overall optimum position estimate.
- ☐ It computes a path from my present position to the desired final position.

✔ **Correct**
Yes, this is correct.
