Module 7 Introduction

Lesson 1: Foundations of Bayesian Regression Analysis

Lesson 2: Advanced Techniques in Hierarchical Linear Models

Lesson 3: Exploring Generalized Linear Models in Bayesian Context

Module 7 Summative Assessment

Module 7 Summary

Exploring Generalized Linear Models in Bayesian Context Readings

For this lesson, read the following:

- Chapter 16: All sections (16.1 to 16.7)

You may download the PowerPoint used in this lesson's video lecture here:
