

 Menu

Fine Tuning Resources

Good to have both of these at your disposal going through the next demo

[Fine-tuning - OpenAI API](#) 

[Data preparation and analysis for chat model fine-tuning.](#) [OpenAI Cookbook](#) 

Reflection questions

1. List and explain the process of fine tuning according to the OpenAI API?
2. What are some of the free scripts provided by the OpenAI Cookbook (is there anything to help w/cost estimation, other features?)
3. What models from OpenAI can be tuned? Is there a recommended model by OpenAI?
