

Public Clouds

Configure and run MathWorks® products in AWS® or Microsoft® Azure® using software plans in cloud marketplaces or reference architecture templates in GitHub®

MathWorks provides software plans in Microsoft Azure Marketplace and reference architecture templates for Amazon® Web Services and Microsoft Azure in GitHub. Reference architecture templates allow full control over your cloud resources, including region and network settings that match your existing cloud infrastructure.

Amazon Web Services (AWS)

AWS Reference Architectures

Use reference architecture templates to run MATLAB® and other products in Amazon Web Services

Microsoft Azure

Microsoft Azure Marketplace

Configure and run MATLAB and other products using software plans developed by MathWorks

Microsoft Azure Reference Architectures

Use reference architecture templates to run MATLAB and other products in Microsoft Azure
