

New issue

toolkit.get_tools() is not working langchain version 6.0.1 if deprecated then no alternative #18907

Checked other resources

I added a very descriptive title to this issue.

I searched the LangChain documentation with the integrated search.

I used the GitHub search to find a similar question and didn't find it.

I am sure that this is a bug in LangChain rather than my code.

The bug is not resolved by updating to the latest stable version of LangChain (or the specific integration package).

Example Code

llm = OpenAI(temperature=0)
zapier = ZapierNLAWrapper()
toolkit = ZapierToolkit.from_zapier_nla_wrapper(zapier)
agent = initialize_agent(toolkit.get_tools(), llm, agent=AgentType.ZERO_SHOT_REACT_DESCRIPTION, verbose=True)
model = whisper.load_model("base")

Error Message and Stack Trace (if applicable)

NotImplementedError: Need to determine which default deprecation schedule to use. within ?? minor releases
error in at agent = initialize_agent(toolkit.get_tools(), llm, agent="zero-shot-react-description", verbose=True)
line 53, in get_tools warn_deprecated(
line 337, in warn_deprecated raise NotImplementedError(

Description

I'm trying to use Langchain to send a email with help of zapier

Contributor

@Atharvabillore01,
it looks like the API is being deprecated since 2023-11-17.

Deprecated This API will be sunset on 2023-11-17: <https://nla.zapier.com/start/>
Source : <https://python.langchain.com/docs/integrations/tools/zapier#example-with-agent>

And from : <https://nla.zapier.com/sunset/> :

By Friday, November 17, 2023, the legacy NLA API will no longer support public end-user deployments via OAuth. The legacy NLA API is also being replaced by new AI Actions. Going forward only AI Platform partners will be allowed to deploy AI Actions to end-users (you can [contact us](#) if interested in becoming an AI Platform partner).

I recommend you to use the new AI Actions API. You can submit an implementation for the new API toolkit if you want to contribute.

Thanks @maximeperrindev. Closing this issue since it's not langchain related.
