Peer-graded Assignment: Week 4: BBC News Classification Kaggle Mini-Project

Deadline Nov 13, 11:59 PM IST

Ready for the assignment?

You will find instructions below to submit.

Instructions

My submission

This week's Peer Review has two parts.

Discussions

Part 1:

For this week's mini-project, you will participate in this Kaggle competition:

Kaggle Competition: BBC News Classification [80 pts]

This Kaggle competition is about categorizing news articles. You will use matrix factorization to predict the category and submit your notebook for peer evaluation.

The part has 80 points. The instructions summarize the criteria you will use to guide your submission and review others' submissions.

You will submit one deliverable for Part 1:

A Jupyter notebook with exploratory data analysis (EDA) procedure, model building and training, and comparison with supervised learning.

Suppose your work becomes so large that it doesn't fit into one notebook (or you think it will be less readable by having one large notebook). In that case, you can make several notebooks or scripts in a GitHub repository (as deliverable 3) and submit a report-style notebook or pdf instead.

Part 2:
