① README ## Change 5: Draw and fill all unknown cards in a list of hands

281 Next, you need to iterate over the list of hands and call the

282 For each card you need to draw from the deck, call the draw_all_unknowns

283 the remaining_deck (recall: you already have a function that returns the

284 Then, for each hand (a Deck) in the list of hands, call the draw_all_unknowns

285 the fill_unknown_card method you wrote earlier to fill the hand with

286 placeholder cards in that hand with the one that was drawn from the

287

288 When you finish that, test with test-draw_all_unknowns.py
