2.5 Lens Related Issues Self-check Quiz

1. What is the **main reason** to use **multiple** lenses, rather than use one lens, in real cameras?

1 / 1 point

⌵

☐

To gather more light

☐

To capture images at different depths

☒

To capture high quality image over all part of the image

✔ Correct

While a series of lenses help capture images at different lengths, the primary reason is to capture the same quality over all sections of the image
