### PROMPT

Please insert your description here.

### Brief description of the dataset

- The dataset has 1372 datapoints (rows) and 2 columns, namely **V1** (variance) and **V2** (skewness), the data is 2 dimensional.
- The **mean** value of the first feature (column) **V1** is 0.433735. The **standard deviation** is 2.842763. The **maximum** and **minimum** values are 6.824800 and -7.042100, respectively, for this column.
- The **mean** value of the second feature (column) **V2** is 1.922353. The **standard deviation** is 5.869047. The **maximum** and **minimum** values are 12.951600 and -13.773100, respectively, for this column.
