Module 3 Introduction

Lesson 1: AI Progress Based on Contributions from Fully-Evolved Technologies

- **Reading:** AI Progress Based on Contributions from Fully-Evolved Technologies
  1h
- **Video:** Technologies that Impact AI-ML
  7 min
- **Video:** Fully Evolved (and Older) Technologies that Impact AI - Part 1
  10 min
- **Video:** Fully Evolved (and Older) Technologies that Impact AI - Part 1
  8 min
- **Practice Assignment:** AI Progress Based on Contributions from Fully-Evolved Technologies Quiz
  Started

Lesson 2: AI Progress Based on Contributions from Midstream or Still Evolving, and Emergent Technologies

Lesson 3: Kurzweil's Law of Accelerating Returns; Updated/New Turing Tests and Standards; Other Recent AI Approaches Such as Affective Computing and BCI (Brain-Computer Interface)

Module 3 Summative Assessment

Module 3 Summary

AI Progress Based on Contributions from Fully-Evolved Technologies

For this lesson, read the following:

- The Convergence of AI, NLP and Machine Learning Technologies: Driving Innovation in Language Technologies
- The Convergence of AI and Robotics
- The Convergence of AI and Computer Vision
