Course Welcome

Module 1: Introduction to deep learning

Lesson 1: Introduction to deep learning

Lesson 2: Neural network

Reading: Deep Learning: Chapter 2.2, 2.4, 2.5 (3)

Video: Neural Network (9 min)

Video: Neural Network Continued (11 min)

Practice Assignment: Neural Network Quiz (Submitted)

Lesson 3: Backpropagation

Module 1: Summative Assessment

Module 1: Summary

Your grade: 100%

Your best: 100% • Your highest: 100%

Neural Network Quiz

Review Learning Objectives

Instructions

1. What is the primary purpose of backpropagation in neural networks?

Ready to review what you've learned before starting the assignment? I'm here to help.

Let's chat

☐ To backup weights of a neural network

☐ To initialize the weights of a neural network

☒ To efficiently compute the gradient of the loss function with respect to the weights

☐ To increase the number of layers in a neural network

Correct

Correct

Submitted

Nov 25, 2:42 AM '24

2. Which of the following networks introduced the concept of "depth" in neural networks through many hidden layers?

To pass you need at least 80%. We keep your highest score.

Correct

Correct

3. Which method is commonly used to minimize the total loss in a neural network?

1 / 1 point

☐ Cross-validation

☐ Monte Carlo simulation

☐ Bootstrap aggregating

☒ Backpropagation

Correct

Correct
