|------------------|----|
| (1) Instructions |    |

### Review Learning Objectives

### III. Instruktionen

1. What is the primary goal of **model compression** within the context of deploying ML models?
- ☐ To improve the aesthetic appeal of the model's output
- ☐ To increase the complexity of the model
- ☐ To enhance the accuracy of the model
- ☒ To reduce model size for **deployment** in resource-constrained environments
- Correct**
