Fine-Tuning / Multi-Task Learning Quiz

Review Learning Objectives

Instructions

1. What is Transfer Learning? **1 / 1 point**

- A technique that requires starting training from scratch for every new task
- A method that exclusively uses unsupervised learning
- Learning a new task through the adaptation of a pre-trained model
- A form of supervised learning with only labeled data

Correct
Correct!

Submitted
Nov 24, 1:48 PM IST

2. What does multitask learning in neural networks utilize? **1 / 1 point**

- Only unsupervised learning techniques
- Separate models for each task
- A single-layer structure
- A multi-layer structure suitable for learning multiple tasks simultaneously

Correct
Correct!
