Rock Paper Scissors

In the next example, we will use a pre-trained MobileNet model to classify hand gestures of Rock, Paper, and Scissors captured by a webcam.

You can use Brackets to open the **index.js** file and take a look at the code. You can find the **index.js** file in the following folder in the GitHub repository for this course:

[tensorflow-2-public/C1_Browser-based-TF-JS/W4/ungraded_lab/](https://github.com/tensorflow-2-public/C1_Browser-based-TF-JS/W4/ungraded_lab/)

When you launch the **C1_W4_Lab_1_retrain.html** file in the Chrome browser make sure to open the Developer Tools to see the output in the Console.
