SANDIPAN DEY

has successfully completed the online, non-credit Specialization

Deep Learning for Computer Vision

This specialization provides the essential skills in deep learning to train, interpret, and improve models using MATLAB. It represents the most in-demand career skills for employers across technical fields when working in computer vision.

MathWorks Training

MathWorks Training

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
