Week 2 Project: Performing Transfer Learning to Classify Traffic Signs

✔ Submit your assignment

Due Feb 25, 11:59 PM IST

Try again

This quiz is based on the model you trained to classify traffic signs using transfer learning. If you have not finished training your model, please complete training and return to this quiz.

✔ Receive grade

To Pass 100% or higher

Instructions for this project can be found in the preceding reading, "Introducing the Week 2 Project".

1. Given the default mini-batch size, select the best Validation Frequency for the traffic signs dataset:

1 / 1 point

☐ 1

☒ 5

☐ 50

✔ Correct

`length(imgsTrain.Files)/128`

2. What was your final training accuracy? Enter your answer as a percentage, but do not include the % symbol.

1 / 1 point

97.09

✔ Correct

Compare this to your training accuracy in the Week 1 Project to see what a difference transfer learning can make!
