Introduction to Unsupervised Deep Learning

Autoencoders

Generative Adversarial Networks (GANs)

Video: Generative Adversarial Networks

15 min

Reading: Recommended Readings About GANs

1h

Assessments

Recommended Readings About GANs

These resources may help with this week's material:

<https://blog.keras.io/building-autoencoders-in-keras.html>

Optional reading materials for GANs:

GAN series blog post: <https://jonathan-hui.medium.com/gan-gan-series-2d279f906e7b>

This series is a comprehensive review of GANs, easier to read than original papers. Below is one of the series, a concise review on different types of GANs and their loss functions.

<https://jonathan-hui.medium.com/gan-a-comprehensive-review-into-the-gangsters-of-gans-part-2-73233a670d19>

Papers:

Neurips Tutorial on GANs: <https://arxiv.org/pdf/1701.00160.pdf>

GAN original paper: <https://arxiv.org/pdf/1406.2661.pdf>

DCGAN paper: <https://arxiv.org/pdf/1511.06434.pdf>

CGAN paper: <https://arxiv.org/pdf/1411.1784.pdf>

GAN training tips: <https://arxiv.org/pdf/1606.03498.pdf>
