Make a cup of coffee - solution

Solution algorithm

Input

Ingredients required:

- Cup
- Hot water
- Coffee granules

Optional:

- Milk
- Cream
- Sugar

Output

A cup of coffee.

Steps

1. Add drinking water to an electric kettle.
2. Put the kettle on to boil water.
3. While waiting, prepare coffee.
 - 4. Add coffee granules to the cup.
 - 5. If water is boiled, pour water into a cup, else continue to wait.
6. If milk or cream is required, add and stir.
7. If sugar is required, add and stir.
8. Return coffee.
