2.R.R1 (1/1 point)

You are doing an analysis in R and need to use the 'summary()' function, but you are not exactly sure how it works. Which of the following commands should you run?

- ☐ help(summary) ✓
- ☒ ?summary ✓
- ☐ man(summary)
- ☐ ?summary() ✓

EXPLANATION

Any of the above commands work except for 'man(summary)'. Make sure you always read the documentation so you know what functions do when you use them!
