

How to send feedback

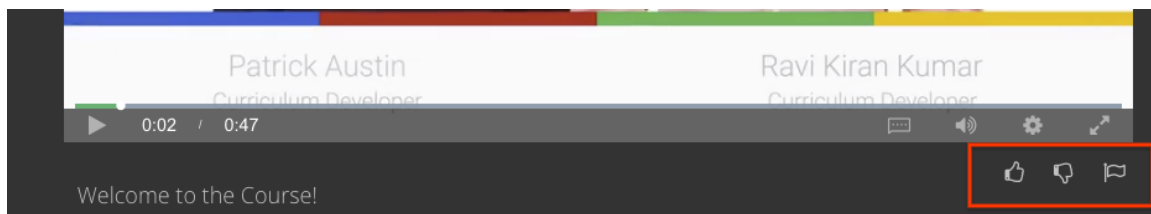

As you progress through this course, you may want to send us feedback about specific content. As a general rule, please send feedback directly in Coursera. Read the guide below on how to send feedback for each course content item.

When Sending Feedback

1. Please be precise -- tell us exactly what is wrong, and what we should consider to fix the problem.
2. If something is broken, or incorrect, we will prioritize these fixes first
3. Some feedback may not be actionable because of Coursera platform limitations. Even if this is the case, please file the feedback anyways.

For Videos, Readings, Quizzes, and Exercises

- Thumbs up: This means you think it's a good item
- Thumbs down: This means the item doesn't work or something is wrong
- Flag: This means that you need to report a problem – here is where you need to be precise and explain exactly what is wrong so we can quickly address the problem.

Thank you so much for joining us through this course. We look forward to your feedback.
