

Cryptographic Tidbits

Lesson 1

**INSERT
VIDEO
HERE**

Cryptographic Tidbits

Lesson 1

**INSERT
VIDEO
HERE**

- Lesson 1 – Setting the stage
 - What cryptography is
 - What are the goals of cryptography
 - Ad hoc cryptography – ancient beginnings

Cryptographic Tidbits

Lesson 1

**INSERT
VIDEO
HERE**

- Lesson 1 – Setting the stage
 - What cryptography is
 - What are the goals of cryptography
 - Ad hoc cryptography – ancient beginnings
- Lesson 2 – Ciphers and codes
 - Transposition ciphers – the scytale
 - Substitution ciphers – Caesar to Vigenere

Cryptographic Tidbits

Lesson 1

**INSERT
VIDEO
HERE**

- Lesson 1 – Setting the stage
 - What cryptography is
 - What are the goals of cryptography
 - Ad hoc cryptography – ancient beginnings
- Lesson 2 – Ciphers and codes
 - Transposition ciphers – the scytale
 - Substitution ciphers – Caesar to Vigenere
- Lesson 3 – Cryptanalysis – Enigma and Venona

The World of Cryptography

Bird's Eye View

**INSERT

- Basic terms: plaintext, ciphertext, encrypt, decrypt
- Threat Model: Read, Change, Forge
- Information Security Goals
 - Confidentiality – Can't read our messages
 - Integrity – Can't change our messages
 - Authenticity – Can't forge our messages

The Early Days

The Algorithm IS the Key

**INSERT
VIDEO
HERE**

The Early Days

The Algorithm IS the Key

- Spoken languages originally very local

**INSERT
VIDEO
HERE**

The Early Days

The Algorithm IS the Key

**INSERT
VIDEO
HERE**

- Spoken languages originally very local
- Written languages not yet invented

The Early Days

The Algorithm IS the Key

**INSERT
VIDEO
HERE**

- Spoken languages originally very local
- Written languages not yet invented
- Algorithm

The Early Days

The Algorithm IS the Key

**INSERT
VIDEO
HERE**

- Spoken languages originally very local
- Written languages not yet invented
- Algorithm
 - Tell the message to a messenger

The Early Days

The Algorithm IS the Key

**INSERT
VIDEO
HERE**

- Spoken languages originally very local
- Written languages not yet invented
- Algorithm
 - Tell the message to a messenger
 - Messenger travels to recipient

The Early Days

The Algorithm IS the Key

**INSERT
VIDEO
HERE**

- Spoken languages originally very local
- Written languages not yet invented
- Algorithm
 - Tell the message to a messenger
 - Messenger travels to recipient
 - Messenger recites message

The Early Days

The Algorithm IS the Key

**INSERT
VIDEO
HERE**

- Spoken languages originally very local
- Written languages not yet invented
- Algorithm
 - Tell the message to a messenger
 - Messenger travels to recipient
 - Messenger recites message
- The language is the key!

The Early Days

The Algorithm IS the Key

**INSERT
VIDEO
HERE**

- Spoken languages originally very local
- Written languages not yet invented
- Algorithm
 - Tell the message to a messenger
 - Messenger travels to recipient
 - Messenger recites message
- The language is the key!
 - Modern example: Navajo Code Talkers

The Early Days

The Algorithm IS the Key

**INSERT
VIDEO
HERE**

- Spoken languages originally very local
- Written languages not yet invented
- Algorithm
 - Tell the message to a messenger
 - Messenger travels to recipient
 - Messenger recites message
- The language is the key!
 - Modern example: Navajo Code Talkers
- Later, the written language is the key

Histiaeus

Increasing sophistication – sort of
