

Formative Assessment 1

Formative Assessment

Assume that you have a Poetry project in the directory `my-proj`. Install all of the packages in the `pyproject.toml` file and then print out a hierarchical list of the dependencies.

Drag the appropriate code blocks into the box below and make sure they are properly indented. **Hint:** not all of the code blocks will be used.

Drag from here

peotry add *

poetry show

Construct your solution here

cd my-proj

poetry install

poetry show --tree

Check It!
