

Formative Assessment 2

Formative Assessment

Fill in the blanks below with the appropriate file name.

- `lock` `poetry.lock` - Contains all the dependencies and their dependencies
- `requirements.txt` - Contains a list of dependencies to be used with with `pip` or Poetry
- `toml` `pyproject.toml` - Contains a list of dependencies and project metadata

- The `requirements.txt` file contains a list of dependencies. It can work with either `pip` or Poetry.
- The `pyproject.toml` file contains a list of dependencies and metadata associated with the project.
- The `poetry.lock` file contains a list of **all** dependencies, including the dependencies of a dependency.

Check It!
