Review Learning Objectives

1. What is the domain and range of the following function?

1 / 1 point

- ☐ Domain: all real numbers, Range: all real numbers
- ☐ Domain:  $x \geq -1$ , Range: all real numbers
- ☒ Domain: all real numbers, Range:  $y \geq -1$
- ☐ Domain:  $x \geq -1$ , Range:  $y \geq -1$

✔ Correct  
Values of  $y$  starts from  $-1$ . When  $y = -1$  there are two values for  $x = 1, x = -1$  and finally for all values of  $y \geq 0$  there are two values each for  $x$  i.e.  $x \in \mathbb{R}_{x_1=-x, x_2=x}$ .

2. What is the domain and range of the following function?

1 / 1 point

- ☐ Domain: all Real numbers, Range: all Real numbers
- ☐ Domain:  $x \geq 2$ , Range: all Real numbers
- ☒ Domain: all Real numbers, Range:  $y = 2$
- ☐ Domain:  $x \geq 2$ , Range:  $y = 2$

✔ Correct  
 $Y \in \{2\}$  and  $X : \mathbb{R}$

3. What is the domain and range of the following function?

1 / 1 point

- ☐ Domain: all Real numbers, Range: all Real numbers
- ☒ Domain:  $x \leq 3$ , Range:  $y \geq -1$
- ☐ Domain: all Real numbers, Range:  $y \geq -1$
- ☐ Domain:  $x \leq 3$ , Range: all Real numbers

✔ Correct  
We can see  $\max(x) = 3$ . And  $\min(y) = -1$ .  $x \leq 3$  and  $y \geq -1$
