Piecewise Functions Quiz

Review Learning Objectives

1. Compute $f(0)$ using the piecewise function showing below, refer to this figure as Figure A:

-1

Correct
Correct! When $x=0$, we can see that the function lies at $y=-1$ on the graph.

2. Using figure A., what is $f(-5)$?

5

Correct
Correct! When $x=-5$, the function is at $y=5$.

3. Using Figure A., what is $f(1)$?

0

Correct
Correct! When $x=1$ the function is at $y=0$.

4. Using Figure A., what is $f(2)$?

1

Correct
Correct! When $x=2$ then the function is at $y=1$.

5. Compute $f(-1)$ given the function definition:

$$f(x) = \begin{cases} x^2 - 1, & \text{if } -1 < x \leq 1 \\ x - 1, & \text{if } 1 < x < 3 \\ |x|, & \text{if } x \leq -1 \end{cases}$$

1

Correct
Correct! When $x \leq -1$ we compute $|x|$, which is 1.
