Python resources

This module requires a basic knowledge of Python to perform the programming assignments.

I recommend to take the interactive tutorial at: <http://learnpython.org>
(https://eventing.coursera.org/api/redirectStrict/3OVSZdk4o5rnkLsTnZCT-qBMA3O-tbZmq0-bQs3f799PdVe6FyzXTBFujCOyXfEEOcwwNjuerF_EWWhyXR9I0g.xdIVNiH3UwHh07dOZLzIWw.25QUXgSEvw9rtEloHraXtgftejUfhhoqssaxxfzrkzJ7kVqmw5DsZIX19uhfrWWNhrNX9CylGoiZjcjVoYdp3U rJWgx8oWR9FLwtWI_pT-e2cYLke9h5j1Y0p4qem3rydVGwLM1IYHCK3xqamlkQT4GKDz3Q3ORX_gwmec-Lx_PfupJvL2B5QkAq8gQilKBK2vh7Wg-xp3jsmzGLntZW_PRzDbGJjrI-hRMEtumP4O1lvXHqa2Gp10lMAFgQ2nde), the "Learn the basics" section should be enough.

Then if you want to learn more about Python, even if not necessary for this class, you can check the Coursera class:
