

Course Home ([/learn/bigdata-analytics/home/welcome](#)) > Week 3 ([/learn/bigdata-analytics/home/welcome](#)) > [analytics/supplement/hXq2B/pig-script-for-wordcount](#) > [analytics/exam/uJK8H/running-wordcount](#)

-- copy this to a file (or 2 files 1 line each) , if you want to match the input files in the wordcount script

-- you might have these as testfile1 and testfile2 from the previous course

-- BUT TAKE OUT these comment lines. In cloudera vm you can use gedit

A long time ago in a galaxy far far away

Another episode of Star Wars
