Text shown in the video. You can type it in when directed, but we've also listed it here in case you want to just copy and paste it (remember we'll be learning what all this means in the next course!):

Type This	It Means
touch testfile.txt	create an empty file name testfile.txt
echo "Hello world in HDFS" >> testfile.txt	display the line of text that is being inserted into the newly created testfile
cat testfile.txt	read and print out the file
hds -dfs -put testfile.txt	put the file into HDFS
