Congratulations!

You have successfully completed **Data structures: Measuring and Optimizing Performance**, 1 of 5 courses in **Java Programming: Object-Oriented Design of Data Structures** from **University of California, San Diego**.

Final Grade **100.0** %

Unlock a certificate to share your achievement with the world!

Whew! You got through our very challenging course on data structures and performance. You should be very proud of yourself! You can probably tell we got a little carried away when
