Yes, I'd like to receive email about other programs from **University of Washington**. ✕

Yes

Deadline: You must submit this week's assignments by **November 22, 2015, 11:59 PM PT**. ?

Unsupervised Learning

Bill Howe

A brief tour of selected unsupervised learning methods and an opportunity to apply techniques in practice on a real world problem.

[Help Center](#)

Lesson 14: Selected Algorithms

Introduction to

Unsupervised

Learning 6 min

(/learn/predictive-analytics/lecture/WWiY/introduction-to-unsupervised-learning)

K-means 5 min

(/learn/predictive-analytics/lecture/strrf/k-means)

DBSCAN 5 min

(/learn/predictive-analytics/lecture/EVHfy/dbscan)

DBSCAN Variable Density and Parallel Algorithms 4 min

(/learn/predictive-analytics/lecture/fHyWF/dbscan-variable-density-and-parallel-algorithms)

Kaggle Competition Peer Review

Assignment: Kaggle

Competition Peer Review 30 min

Due November 22, 11:59 PM PT

(/learn/predictive-analytics/peer/7A5tl/kaggle-competition-peer-review)

Review Classmates:

Kaggle Competition Peer Review 30 min

Due November 25, 11:59 PM PT

(/learn/predictive-analytics/peer/7A5tl/kaggle-competition-peer-review/give-feedback)
