Staying Connected & Learning More

If you would like to stay connected to what we are doing at Vanderbilt as part of the Initiative on the Future of Learning & Generative AI, please don't hesitate to reach out and connect with me on LinkedIn:

<https://www.linkedin.com/in/jules-white-5717655/>

Learning More About Prompt Engineering

After this course (or concurrently), you can learn more about using ChatGPT and how to write effective prompts in my course on [Prompt Engineering for ChatGPT](#) .

Learning More About ChatGPT Advanced Data Analysis

If you want to learn more how to automate lots of personal and work tasks, I suggest my course on ChatGPT Advanced Data Analysis, which is part of the ChatGPT+ subscription. Although it says "Advanced", that is just the name of the tool. This is a course about how you can automate anything with this tool. No "Data Analysis" experience is required.

A separate course is available on this tool: <https://www.coursera.org/learn/chatgpt-advanced-data-analysis>
