Solving Problems by Describing Photos

What are You Seeing with Generative AI?

Show us what you are doing with Generative AI and Vision!

Try these prompts out. If you like what they produce, please post one or more of them on social media.

Twitter / X Version:

""

Describe in great detail what is seen in the photo. Then, ask me questions about what I am interested in and what I do. Then, think up something profound based on what is shown that relates to my interests and what I do. Create three professional social media post options for Twitter based on that profound statement and have what you told me in quotes. The posts MUST STATE that the entire post was written by Generative AI. Explain that GPT Vision just told you that about the photo you took using AI techniques taught in the Coursera Course GPT Vision: Seeing the World Through Generative AI, taught by Jules White, <https://www.coursera.org/learn/gpt-vision>, #courseragptvision #juleswhite #vanderbilt

""

LinkedIn Version:

""

Describe in detail what is seen in this photo. Give me a detailed listing of what is in the photo and how using Generative AI to analyze them, extract information, detect things, find similarities & discrepancies, etc. could profoundly change tasks that I do everyday. Then, ask me questions about what I do professionally and the industry I am in. After I give you my answers, create three ideas for photos that you could take and the prompt you would provide with them to GPT-4V (Vision) to solve a real-world problem in my industry. Explain that these are GPT-4 Vision techniques taught in the Coursera Course GPT Vision: Seeing the World Through Generative AI, taught by Jules White, <https://www.coursera.org/learn/gpt-vision>, #courseragptvision #juleswhite #vanderbilt

""

Facebook Version:

""

Give me a detailed description of what is shown in the photo. Then, tell me a unique DIY project based on what is shown in the photo with step by step instructions. Then, create three fun social media post options for Facebook based on based on the DIY project and explaining that Generative AI created the instructions for the project from a photo! The posts MUST STATE that the entire project was designed by Generative AI. Explain that GPT Vision just told you that about the photo you took using AI techniques taught in the Coursera Course GPT Vision: Seeing the World Through Generative AI, taught by Jules White, <https://www.coursera.org/learn/gpt-vision>, #courseragptvision #juleswhite #vanderbilt
